UZAIR BAIG

BS Software Engineering Student | Aspiring Full-Stack Developer
Rawalpindi, Pakistan · baiguzair53@gmail.com · +92 314 5487196
LinkedIn: linkedin.com/in/uzair-baig-b502ab2a5 · GitHub: github.com/UzairBaig991

PROFESSIONAL SUMMARY

Passionate BS Software Engineering student (5th Semester, Riphah International University) with hands-on experience in full-stack web and mobile development. Completed internships in Web Development (Arch Technologies) and Android App Development (Crixsoft Solution). Built 25+ projects using C++, Python, JavaScript, React, Node.js, Flutter and Kotlin. Strong in OOP, DSA and clean code. Eager to contribute as a full-stack developer.

EDUCATION

BS Software Engineering
Riphah International University, Islamabad
2023 – 2027 (5th Semester)

Intermediate (HSSC)
F.G. Sir Syed College, Rawalpindi
2021 – 2023

Matriculation
Civil College of Commerce & Management
2009 – 2021

PROFESSIONAL EXPERIENCE

Web Development Intern
Arch Technologies, Islamabad · Mar–Apr 2026 (8 Weeks)
- Completed Web Development Internship & Training Program on modern web technologies and projects.
- Gained practical full-stack development experience in a professional setting.

Android App Development Intern
Crixsoft Solution (Online) · Jul–Aug 2026 (1 Month)
- Successfully completed Online Internship in Android App Development with strong performance.
- Strengthened mobile development skills, UI principles and Android project work.

TECHNICAL SKILLS

Languages	C++, Python, JavaScript, Kotlin, Assembly, HTML, CSS
Frameworks	React.js, React Native, Flutter, Node.js
Core	OOP, DSA & Algorithms, Graph Algorithms (DFS/BFS), Database, CRUD
Areas	Full-Stack Web, Android Mobile Apps, Console Apps, Git & GitHub

SELECTED PROJECTS

Astraledger – Invoice Management · Node.js · 2025–26
Web invoice system for small businesses: create invoices, GST/service/non-GST bills, billing workflows.

Maze Solver · Python (DFS/BFS) · 2025
Visual maze solver using graph algorithms demonstrating pathfinding and algorithmic efficiency.

Music Playlist Manager · C++ OOP · 2024
Object-oriented console app with add, delete, search and play using classes, encapsulation and inheritance.

Banking System · Python · 2024
Console banking app with account creation, deposits, withdrawals and transaction management.

Employee Manager · C++ · 2023
Full CRUD console application for employee records with efficient file handling.

Restaurant Management System · Assembly · 2024
Low-level console app for menus and orders; strengthened control flow and memory concepts.

Doctor Appointment System · Node.js · 2025
Group project: console-based appointment scheduling and patient management.

Other Projects
Weather & Notes Apps (React.js), To-Do Apps, Expense Tracker, Invoice Maker (React Native), E-Commerce, Gym & Charity Websites, Recipe Finder (Flutter), Kotlin Android apps (Quiz, Pharmacy, Crypto Tracker).

CERTIFICATIONS & ACHIEVEMENTS

- **CPA: Programming Essentials in C++** — Cisco Networking Academy (2023–2024)
- **Web Development Internship** — Arch Technologies (Mar–Apr 2026)
- **Android App Development Internship** — Crixsoft Solution (Jul–Aug 2026)
- Completed 25+ academic software projects across multiple languages
- Designed real-world invoice system (Astraledger) for small-business billing
- Regular use of Git & GitHub for version control and project management
